- There will be a 4-foot sidewalk and a 3½-foot brick amenity strip between the sidewalk and the street.
- There will be trees in cast iron encasements and decorative illumination.
- The street will have two 11-foot wide travel lanes.
- Parking will be on the south side of the street only (2 of 17 on-street parking spots have been sacrificed.)
- The project is slated to begin in May and take 3 months to complete.
- New sidewalks will go the full length of Crescent from Taylor Reed to Glenbrook Road.
